

Anubhav Shukla

Electronics and Telecommunication

EDUCATION

Bharati Vidyapeeth College of Engineering

JULY 2021 - 2025

Pune, Maharastra

B.Tech in Electronics and Telecommunications

CGPA: 8.61

ACHIEVEMENTS

- 2nd Rank in Frontend competition held in college.
- Hackerrank Gold badge in Problem Solving.
- 8,000+ impression on linkedin blog post

SKILLS

Front-end Development (React.js, Angular.js Next.js)

Back-end Dev (Node.js, django)

Database (SQL, MongoDB, Firebase)

Application Dev (Flutter)

Machine Learning / AI (Python)

EXPERIENCE

Software Engineer at Vaizle

- Developed and maintained web applications using Angular.js and TailwindCSS.
- Built and managed APIs using Nestjs for robust and scalable server-side applications..
- Worked closely with the project manager and other developers to deliver projects on time.

Content Writer at LinkedIn

- Wrote in-depth articles and blog posts focused on machine learning and AI.
- Researched trending topics and industry news to create relevant and engaging content.
- Developed a content strategy to increase engagement and followers, achieving over 8,000 impressions on a single blog post.

Helping Local Businesses (Freelance Work)

- Developed customized websites for local businesses to establish their online presence.
- Used technologies like ReactJS, NextJS, Django, MongoDB, and NodeJS to build robust and scalable solutions.
- Conducted training sessions to empower business owners to manage and update their websites independently

PROJECTS

Vehicle Counter with Ultralytics and OpenCV

- Developed a vehicle counting system using OpenCV and the Ultralytics YOLO model.
- Implemented object detection techniques to identify and count vehicles in real-time.
- Fine-tuned the model for high accuracy in different traffic conditions.

Caption Generator

- Developed a machine learning model to generate captions for images using Python.
- Utilized libraries such as TensorFlow and Keras for model training and testing.
- Implemented image processing techniques to enhance the accuracy of the model.

Other

- **Technology Stack:** React.js, Node.js, MongoDB, Python, Flutter, Django, Nextjs
- **MERN Portfolio**
 - **Features:** Showcases skills and projects, responsive design, animations.
- **Clone Websites**
 - **Example:** Amazon, Instagram, Tinder, Twitter
- **Hackathon Projects:** Rapid prototyping, teamwork, innovative solutions.

Building Start Up (present)

- Working on developing a cross-platform mobile application using Flutter.
- Integrating machine learning features to enhance the app's functionality.
- Utilizing technologies like Next.js and TailwindCSS for web development.
- Encouraging team collaboration and idea sharing to drive innovation.
